

CCML Medical Paralibrarian SIG, February Meeting,
2/25/08.

The Medical Paralibrarians SIG met on Monday, February 25, 2008 at the Health Sciences Library 1st Floor Teaching Lab where ten people attended the meeting, including our guest speaker, Adelaide Fletcher. Addie is the Electronic Resources Librarian at the Denver Medical Library. Addie presented "RSS Feeds" to our group and she demonstrated practical uses such as:

- Ability to find useful blogs...and keep them
- Up-to-date professional literature at your fingertips
- Tools that help you stay aware of information

We were fortunate to have Addie guide us through RSS Feeds at our meeting. Everyone learned something useful and at least became aware of RSS Feeds and blogs ... and where they hide.

Respectfully submitted by,
Debra Miller
